## CAREER OBJECTIVE

Front-End Developer with the ability to collaborate effectively with senior developers while spending extra time learning new skills. Enjoy working closely with team members to ensure workloads are effectively redirected. With a passion for both personal growth and for software development, I attended a 100+ hour coding courses to learn new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop creative quality solutions.

## EXPERIENCE

### Freelance Developer — 10-2021-Present

- Build simple and advanced UI for the clients project specification with web development best practices.
- Write high-quality, scalable, and reusable code.
- Transform app designs into front-end code with HTML, CSS, JavaScript & ReactJs
- Coordinate effectively and regularly with client to ensure their goal and vision is met throughout every step of the project.
- Debug errors, troubleshoot issues, and perform routine performance optimizations.
- Ensure projects are up to clients needs before submission.
- Communicate all features in simple language, when client isn't familiar with industry technical terms.

## EDUCATION

Certificate in Web Development - The App Brewery - 04-2021

Certificate in React Development - ZTM Academy - 07-2021
